common educational institutions, is completely waived off for the parents. When character development is prime focus of the schooling, it leads to create ideal Sai students as ideal citizens of the Bharath. With this notion, in spite of the severe financial difficulties developed due to the pandemic, the school run by the **Sai Educare Trust**, continued to offer the free education programme without any stoppage due to Swami's Divine Grace and benign support of the well-wishers.

"Education is not for mere living, it is for live a fuller, more meaningful, a more worthwhile life. There is no harm if it is for a gainful employment but the education must realise that existence is not all, that gainful employment is not all. What is needed today is that we should live a life of good quality. The fostering of sterling character and good conduct is the need of the world."
